WE BELIEVE THAT....

- 'Backward Design' process allows teachers to create ample opportunities for Formative Assessments to the students. It also permits teachers to re-adjust teaching till the desired outcomes are achieved.
- Offering specific, constructive & positive feedback on student's performance by teacher makes education more personalized.
- For bringing 'coherence' in the knowledge & skill, we undertake special effort in organizing the syllabus by using various organization principles.

WE BELIEVE THAT....

- Nature of syllabus, examinations, rules & regulation, code of conduct, teacher's expectation, etc are given well in advance to the student in the form of 'Course Description & Learning Outcome Booklet' to prepare their mindset accordingly.
- Apart from 'Subject Expertise', teachers also receive formal training on how to bridge the gap, new pedagogy, planning abilities & students' specific learning needs.
